

Enphase Encharge Extended Warranty

The **Enphase Encharge™** storage system now also comes with an option to purchase an additional 5-year extended warranty on the product to lengthen the entire term of the limited warranty up to 15 years.* Additional details and conditions outlined below.

- The extended warranty will cover both the workmanship and the capacity retention features of the system.
- The extended warranty is available for systems at the following original installation locations: United States and territories (including Puerto Rico, Northern Mariana Islands, U.S. Virgin Islands, American Samoa, and Guam).
- The extended warranty is valid only for systems sold by Enphase or by an Enphase-authorized reseller and is void where prohibited.
